

Spring for vaccines

You're invited to a vaccination clinic

Vaccines can help you be well through every season. That's why we're hosting a clinic to help you stay up to date as recommended by your doctor. A licensed CenterWell Pharmacy® pharmacist will administer vaccines including:

- [Pneumonia]
- [COVID-19]
- [Tdap]
- [RSV]
- [Shingles]
- [Flu]

Getting vaccinated can help prevent illness, reduce the risk of complications and even protect the people you love.¹

Most vaccines are covered at no cost by Medicare Part B, Medicare Part D and most insurance prescription plans.² Check with your insurance plan for details.
