Bath Fizz is a Bathing Delight

EVER THOUGHT of converting your bathtub into a candy-store? An apple orchard? How does a tropical rainforest sound? While this may seem like an exaggeration, Bath Fizz, the latest product innovation from All Natural Botanicals, is truly an experience of sheer bathing delight.

Whether you seek a remedy

for aching muscles, a daily grind stress-reliever, or a good old-fashioned scrub-in-the-tub, Bath Fizz will make you feel like a kid again. The only difference is, instead of wanting to play with mud pies, you'll want to indulge in the comfort of Bath Fizz.

Remarkably effective in eliciting a calm state-of-mind, each droplet of Bath Fizz is manufactured with the finest fragrances available. You have the luxury of choosing from six delightful scents: apple, jasmine, lavender, fresh peach, strawberry and vanilla. Just place one droplet of your favorite fragrance in your bath water and watch Bath Fizz release millions of tiny magic bubbles. (Note: The z's in "Fizz" are an indication of how rested you will feel - you may actu-

ally want to catch some zzzz's using it!)

They say big things come in small packages. Bath Fizz may appear small, but make no mistake about it, they are chock full of fragrance. These marble-sized droplets will faintly tint your bath water without staining your tub or leaving a greasy film. Bath Fizz is reasonably-priced and should retail under \$3.00. As an attractive, diverse and affordable product, it is sure to stand head-and-shoulders above the competition.
