FIT COMMENT(S):

Shoulder slope is okay as garment

Go back to spec on CB body length

Increase bottom opening +3/8" flat - see updated MC

We are adopting tie length as sample - spec has been updated

Increase sleeve cap height +1/8"

Neck width is small - increase neck width +1/2"

Lower front neck drop +1/4"

Lengthen sleeve length +1/4" - see updated specs

Beltloop placement is too high. Lower beltloops +1/4" - see updated specs

Reduce beltloop length -1/4" - see updated specs

Go back to spec on bicep and elbow.

Follow updated measurement chart and resubmit for 2nd fit

FIT COMMENT(S):

Reposition sleeve button at cuff ½" towards back - see photo below

Raise sleeve belt position to be 2 3/4" from edge

Reshape collar as shown in image below.

Increase lapel width +3/8" - see updated specs

Increase collar width +3/8" - see updated specs

Reduce belt height to 2" - see updated specs

Balance is okay as sample

Increase butterfly lining length +3" - see reference image below

Increase interlining to 260GSM

Change collar stand to banana stand for collar to lay better

Bust dark needs more bust projection - adjust dart as shown in photo below.

Raise hip pockets 1/2" - see updated spec

Remove shoulder epaulettes and beltloops at shoulder

Please improve overall sewing workmanship - seams are very wavy and hem is unven

Resubmit following changes

FIT COMMENT(S):

Shoulder is sticking away, lower shoulder slope 1/4" for dropped shoulder - see image below

Sleeve head has a lot of ease - redcue sleeve cap width -3/8". After, adjust bicep - see photo below and follow updated specs

Armhole is too high - lower armhole 1/4"

Neck width is too small. Inrease neck width 3/8" and lower front neck drop 1/4" - see photo below and follow updated measurement chart

Increase sleeve elbow +1/8" - see updated specs

We are keeping back body length as per sample - go back to spec on front body length

We decided to keep self waist tie - please see reference image for shipping instructions

Reduce chest width -1/2" flat - see updated MC

Sleeve length is short - lengthen +1/4"

Follow updated MC

Improve overall sewing workmanship and resubmit for 2nd fit sample

BR

FIT COMMENT(S):

Raise front neck drop -3/8"

Strap length is too long - shorten strap length -1/2"

Reshape front armhole curve for better coverage - see photo below

Back strap distance is too far apart - reduce distance 1/4" each side (1/2" total)

Side slit seam tension is too tight causing the sides to pick up when on form - please adjust tension

Follow updated measurement chart and resubmit for 2nd fit

FIT/PATTERN ADJUSTMENT(S):

Tension at side slits is too tight.
Please adjust tension and improve overall sewing workmanship
