designer shops

Only on Perigold — and Just for You We tapped some of our favorite interior designers to handpick the essential pieces behind their signature spaces ${}^{\circ}$

To make homes livable, I love to incorporate sophisticated *mixes* of color, texture, and light.

Mixing and matching *antique* barware with *modern-day* hardware and a splash of color creates a *dynamic* modern mix.

If your kitchen is *classic* and in keeping with the context of your home, it will remain feeling *fresh* over time.

Greet guests with *gifts* that can be used during their stay then taken home as a *memento* of your time together.
