

# Oktoberfest

## Join us for an HPE Solutions Experience and Virtual Beer Tasting

REGISTER NOW

Hello Colleague,

World Wide Technology and Hewlett Packard Enterprise would like to cordially invite you to their upcoming Oktoberfest HPC/AI solutions virtual experience taking place on **Thursday, October 27 at 4 p.m. CT.**

During the event's runtime, experts from WWT and HPE will be on hand to debunk common HPC/AI myths including:

- HPC + AI are distinctly separate computing domains and should not be configured together
- HPC + AI is only for big organizations or governments — It costs hundreds of millions of dollars of investment
- HPC + AI is only for scientific and technical data or domains — It is for niche applications
- HPC + AI is only for on-premises data centers — It is a stadium-sized footprint
- HPC + AI deployments are complex and time consuming

All event participants will also receive a curated beer tasting kit ahead of the event's start date which contains four craft beers, a packet of beer pairing nuts, and a collectible coaster and beer tasting glass.

Spots for the Oktoberfest virtual event are limited so act fast and **Register Now!**

Register today — 25 spots available

### Smart Technology Solutions Start With World Wide Technology

Founded in 1990, World Wide Technology (WWT) is a global systems integrator that provides digital strategy, innovative technology and supply chain solutions to large public and private organizations. Based in St. Louis, WWT employs 7,000 people and operates over 4 million square feet of warehousing, distribution and integration space in more than 20 facilities throughout the world. As a Hewlett Packard Enterprise Platinum Solution Provider, our commitment and relentless focus on our people, customers, partners, culture and core values has stood the test of time — and is as relevant today as ever before.
