- AI Tools

PROJECTS / EXPERIENCE:

Graduation Project – “Al-Aoun” Platform

Role: UX/UI Designer

- Designed a comprehensive user experience and user interface for a community-support platform serving Gaza residents.

Responsibilities

- Conducted user-centered design research to identify user needs and pain points.
- Created user flows and information architecture for the platform.
- Designed wireframes and high-fidelity interfaces for web and mobile experiences.
- Developed interactive prototypes to validate design decisions.
- Applied usability principles to improve accessibility and user satisfaction.
- Designed a consistent visual identity and design system across the platform
