PROJECTS / EXPERIENCE

Graduation Project - "Al-Aoun" Platform

Role: UX & UI Designer

- Designed user experience (UX) and website interface (UI), focusing on usability, aesthetics, and interactive 3D features.
- Developed a smart, integrated application to support Gaza residents during wartime, providing a unified platform for essential services, updated information, and community needs.

Key objectives of the project:

- Provide reliable, updated information on essential goods, services, and working hours.
- Facilitate financial transactions and appointments for safe access to stores and clinics.
- Organize distribution of resources efficiently to ensure equitable access.
- Support locating missing persons via a search engine and interactive map.
- Provide detailed information about border crossings and travel conditions.
- Deliver real-time news and updates on security and humanitarian aid.
- Enable documentation of property damage to allocate aid effectively.
- Completed and defended the project under field conditions during wartime.

LANGUAGES

- **Arabic:** Native
- **English:** Upper-intermediate (studied fully in English)

ACHIEVEMENTS

- Demonstrated resilience and commitment by completing the final year and graduation project under extreme wartime conditions.
- Achieved high academic performance: GPA of 92 in the first semester and 93 in the second semester of the final year.
- Successfully designed and implemented a UX/UI-focused graduation project "Al-Aoun" supporting the community in critical times.
- Certificates of Excellence every semester for outstanding academic performance.
- Achieved Certificates of Excellence every semester for maintaining a GPA ≥ 90
