## COVID-19 Case Count Dashboard Now Live

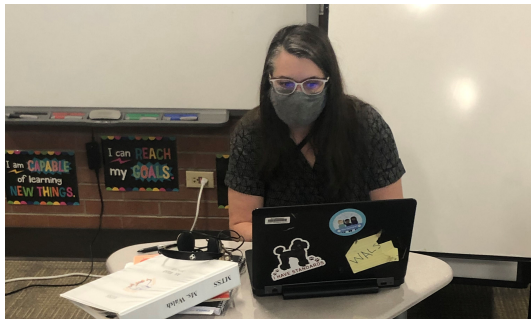

Interactive and customizable

We have launched a live and interactive [COVID-19 case count dashboard](#) for the community. Media looking for information about cases in our schools should refer to this dashboard.

## We are #TeamJeffco

Sharing stories of adaptability, teamwork, and Jeffco pride.

**Elaine Walsh**  
Remote ESL & 2nd Grade, Secret ES

**Print Shop/Copier Team**  
Quail Building

Elaine's position has changed multiple times since August 12, in order to staff our school to meet the needs of our students and community. Elaine has faced every pivot and challenge with a positive and student-centered attitude. Her positivity, flexibility, and hard work has made others feel at ease during what can be stressful and rapidly changing times. Elaine has made a tremendous difference to so many students already! Her coworker shared, "You would never know this is her first pandemic!"

The print shop and copier teams have been working hard helping out with massive quantities of COVID supply orders and managing delivery and pick-up of those supplies. While not work anyone expected having to do, they all jumped in to help - truly a "we are one" moment. Manager Rick Rowe worked with Communication Services, Health Services, Food Service, and Facilities staff to design and produce over 90,000 COVID signs for all 155 schools and other district buildings and ensure they were delivered and installed.

## New Furniture Brightens Our Schools

### Summer Makeovers: Updates to Furniture Part of Capital Improvements

We've been sharing construction updates the last few months, and they are amazing! But our capital improvement program funded by the 2018 voter-approved 5B measure also included some pretty great makeovers of existing buildings. So far, we have invested over \$5 million in new furniture, fixtures, and equipment which have brightened up so many Jeffco schools over the last few months. What a great way to welcome back our students!

## Video from Jack: An Update on Board Activities

Our regular update on Jeffco Public School's Board of Education is back.

The Board of Education weighs COVID-19 impacts and gets updates on bond-funded construction and family engagement. Chief Communications Officer Tammy Schiff brings us up to speed.
