

# A TECHIE'S GUIDE TO 5 MUST-HAVE SMART GADGETS

## POWER BANK

It's quite a lifesaver, power banks help you charge your mobiles, tablets, laptops, etc., hassle-free. These are portable enough to come in the pocket and give you the convenience of charging anywhere without being stuck at a charging spot.

## WIRELESS HEADPHONES

Isn't it frustrating when the cord always gets tangled? The wireless headphones offer you – no cables, and great portability & functionality. The cable will not be an issue when you're walking, running, at the gym, or traveling, as they usually pair via Bluetooth.

## Bluetooth speaker

This cordless device lets you stream music from your phone or smart home device without cords or outlets. Most speakers are lightweight, you can stack them in your handbag or backpack. Sound quality is never an issue despite their size.

## Action Cameras

A traveler's favorite, Why? It's because they are so compact, they can fit into the palm of your hand or be mounted anywhere. The smaller and lighter size of action cameras makes them ideal for capturing action shots from unique angles.

## Smartwatch

Talking about 'smart', how can we miss this cool watch-which isn't your typical time teller? This watch is Bluetooth-capable and typically integrates with a user's smartphone. This watch can be used to initiate and answer phone calls, read email, text, and social media messages, and also let you know the weather outside.
