

Nature loves us. You will too.

JBL Commercial is committed to making the world a better sounding place, while leaving a smaller footprint behind. That's why our new line of high-performance 1U mixer-amplifiers is manufactured using clean standards, including a low energy powder coat that uses 33% less energy. Plus, the entire line features a fanless, space-saving design with unsurpassed reliability, thermal management, and power efficiency – all thanks to Crown's exclusive DriveCore™ Technology.

Being "green" never sounded so good.
