

Dear parents,

It is with great excitement that we invite your child to join us for our Summer Camp Program from July 5 – August 13th, 2021. We have stellar program lined up this year that is sure to energize your child and reinforce their interest in learning and exploration!

This Summer Camp's theme is My City! Students will explore the many wonders of Ho Chi Minh City as we dive into:

Architect and structures where we become familiar with how buildings were made in the past, understand the variety of ways of how people travelled in the past, and practice applying a design process by making models of houses/buildings.

Weather and climate where we find out about the weather patterns and climatic conditions in HCMC, learn the science behind how clouds are formed (water cycle), and research the reasons for why all living things need sunlight.

Saigon River is the beating heart of our city. Within this topic we'll explore how rivers can change the land through which it flows, the many ways in how people benefit from rivers, and how rivers provide habitats for wildlife.

As our city is adapting to using sustainable energy, students will learn about different ways to decrease consumption and save energy, understanding basic principles of energy, and researching alternative ways of generating energy (i.e wind, solar).

REGISTRATION:

Registration is first come, first serve and space is limited! Register with Amanaki School's office via mail, this letter, or by phone.

BREAKFAST, LUNCH, & SNACKS:

Are all provided for! Your child will have plenty of the most delicious, well balanced snacks and meals possible.

SPECIAL NEEDS/REQUESTS:

If there are any special considerations that you feel we need to be aware of regarding your child (medications, allergies, behavioral problems, illnesses, etc.), please let our front office know.

Kind regards,
Amanaki Team
