INTERESTS

Anime

Jujutsu Kaisen, a top tier of the current crop of shounen anime that drew me in with its beautiful martial arts choreography and kept me hooked with its intriguing world and story.

BECK, a classic anime about a group of teens forming a band that shows what it's really like to make music. The show has a spectacular dub that recreates all the show's music in english and really shows off how good music in anime can be.

Lupin The Third, a true classic, I only joined the party with Part Four but it's a series with an effortlessly lovable cast who I would watch do literally anything. A fun romp that never lets off the gas when there's a heist to be had.

Baccano!, something a sleeper hit compared to its sister series Durarara!! Baccano is a story of crime and conspiracy on the streets of prohibition-era New York and why some of its members may be much older than they seem. Twists around every corner in this series, I couldn't put it down.
