# RENDER IT VISIBLE

With high-definition, detailed images and an enhanced, streamlined workflow

Easily manipulate 3D DICOM datasets

Maintain control with advanced tools and features

Enhanced user experience

- Manipulate 3D DICOM datasets to see detailed structures from any angle you choose
- Angle and cut planes intuitively
- Compare 3D datasets by having several datasets open simultaneously
- Easily navigate different tools and functions
- Label 3D datasets for easy reference
- Move easily between render mode and non-render mode

## VIEW 3D DATASETS AND SAVE IN DICOM-COMPLIANT FORMAT—ALL OFFLINE.

Easily export to presentations, training tools, and more

Step through 3D datasets with multi-slice view

Export 3D datasets to 3D-compatible PACS systems

Save 3D datasets in a DICOM-compliant format and convert L3D files to DICOM
