

The Best Eco-Friendly Cleaning Products of 2024

As environmental concerns become more pressing, many consumers are seeking eco-friendly alternatives for everyday products. Cleaning supplies are a major area of focus, as conventional cleaning products often contain harmful chemicals that can negatively impact both health and the environment. Thankfully, 2024 has seen a surge in high-quality, eco-friendly cleaning products that are both effective and sustainable. Here are some of the best eco-friendly cleaning products of 2024, curated to help you keep your home spotless while being kind to the planet.

1. Seventh Generation Disinfecting Multi-Surface Cleaner

Seventh Generation has been a pioneer in the eco-friendly cleaning space for years, and their Disinfecting Multi-Surface Cleaner remains a top choice in 2024. This product uses a botanical disinfectant derived from essential oils, particularly thymol, which effectively kills 99.99% of germs and viruses, including the flu virus.

Key Features:

- Plant-based formula with essential oils.
- Effective against common household germs.
- Free from synthetic fragrances and dyes.
- Biodegradable and non-toxic.

Why It's Eco-Friendly: Seventh Generation prioritizes transparency and sustainability. Their products come in recyclable packaging, and the company actively works to reduce its carbon footprint through responsible sourcing and production practices.

2. Method All-Purpose Cleaner

Method's All-Purpose Cleaner is another standout product in the eco-friendly cleaning market. Available in a variety of delightful scents like lavender and pink grapefruit, this cleaner is formulated with naturally derived ingredients that cut through grease and grime effectively.

Key Features:

- Naturally derived, biodegradable ingredients.
- Cruelty-free and vegan.
- Packaged in bottles made from recycled plastic.
- Available in multiple natural fragrances.

Why It's Eco-Friendly: Method uses renewable, biodegradable ingredients and recyclable packaging. The company is a certified B Corporation, meeting rigorous standards of social and environmental performance, accountability, and transparency.

3. Ecover Zero Dish Soap

Ecover Zero Dish Soap is ideal for those with sensitive skin or allergies, as it contains no fragrances, dyes, or chlorine. Despite its gentle formula, it's tough on grease and leaves dishes sparkling clean.

Key Features:

- Fragrance-free and dye-free.
- Hypoallergenic.
- Plant-based ingredients.
- Cruelty-free and biodegradable.

Why It's Eco-Friendly: Ecover is committed to creating products that are safe for both people and the planet. Their dish soap is made from renewable, plant-based ingredients and comes in recyclable packaging. Ecover's production facilities are also powered by renewable energy.

4. Mrs. Meyer's Clean Day Multi-Surface Everyday Cleaner

Mrs. Meyer's Clean Day Multi-Surface Everyday Cleaner combines effectiveness with delightful, garden-inspired scents like basil, lavender, and lemon verbena. It's perfect for cleaning any non-porous surface in your home.

Key Features:

- Plant-derived cleaning ingredients.
- Essential oils for fragrance.
- Free from parabens, phthalates, and glycol solvents.
- Cruelty-free and biodegradable.

Why It's Eco-Friendly: Mrs. Meyer's uses naturally derived ingredients and essential oils to create products that are gentle on the environment. The company also emphasizes the importance of recyclable packaging and sustainable production practices.

6. BioKleen Bac-Out Stain and Odor Remover

BioKleen Bac-Out Stain and Odor Remover is a powerful enzyme-based cleaner that effectively tackles stains and odors from pets, laundry, and more. It uses live enzyme cultures and plant-based surfactants to break down and eliminate tough stains and odors.

Key Features:

- Enzyme-based, plant-derived formula.
- Free from artificial fragrances and dyes.
- Safe for use around children and pets.
- Biodegradable and non-toxic.

Why It's Eco-Friendly: BioKleen is dedicated to creating products that are safe for the environment and effective for consumers. Their Bac-Out formula is biodegradable and non-toxic, ensuring minimal environmental impact.
