

QUIZ TIME

MYTHS ABOUT UNINTENDED PREGNANCY

True Or **False**

Question 1:

You can get pregnant the first time you have sex.

Answer

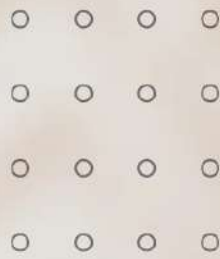

True

You can get pregnant during the first sexual encounter. Ovulation can occur and the sperm can fertilize an egg.

Question 2:

Birth control
is 100%
effective.

Answer

FALSE

No contraceptive method guarantees absolute protection against pregnancy. To improve efficacy, use it consistently and correctly.

Question 3:

Unintended pregnancies
only happen to young
adults.

ANSWER

FALSE

Although youths are more likely to experience unintended pregnancy, it can happen to individuals of various ages, demographics and circumstances.

Question 4:

All contraceptives
cause weight gain.

ANSWER

False

Only some hormonal contraceptives may lead to weight changes in certain individuals. Overall, contraceptives do not directly cause weight gain.

Question 5:

You can get pregnant
if you have irregular
periods.

Answer

True

Even if cycles are inconsistent, ovulation can still occur, leading to pregnancy.
