Agriculture

A close-up photograph of a woven basket filled with various insects, including grasshoppers and beetles, resting on a patch of green grass. The basket is made of a reddish-brown material with a distinct woven pattern.

# Keep youth learning this summer with **Hungry Pests**

## **Dear Program Leader,**

Keep your youth summer program buzzing with the **FREE** [Leave Hungry Pests Behind](#) service learning curriculum from USDA!

**Service learning provides a unique opportunity for youth to get involved with their communities and practice leadership skills. Through workshops that raise awareness about the threat of invasive pests and project-based activities that teach the importance of protecting our farms and environment, *Leave Hungry Pests Behind* equips students to take action in the fight against Hungry Pests.**

You'll also find **infotext articles** that encourage career exploration and potential future opportunities with USDA. And, make sure to [go online](#) for more **videos**, **online games**, and **summer camp activities**.

Remember, engaging youth in learning during the summer can help boost their school success in the fall. Keep kids hungry for knowledge this summer with Hungry Pests!
