

# Start Your Year with FoodSpan

As you head back to school this fall, remember [FoodSpan](#).

This free high school curriculum from the Johns Hopkins Center for a Livable Future teaches the food system from farm to fork. All 17 inquiry-based lessons are aligned with national education standards in science, social studies, health, and family and consumer sciences.

## FoodSpan

- **Free** and downloadable
- **Classroom-ready** for your first day of school
- **Flexible**—teach the entire curriculum or choose from 17 individual lessons
- **Adaptable** for use in any high school classroom

A collage of FoodSpan materials including a red apple, a lesson overview page titled 'Lesson A Exploring Our Food System', and a checklist with items like 'Free', 'Standards', 'Classroom-ready', 'Inquiry-based', and 'For all levels'.

Grow good food citizens this year with [FoodSpan](#)!
