

## Pluralsight tops the list(s) in G2's Best Software Products of 2023

From the top-rated tech skills platform to the tech investment with the best estimated ROI, we scored top marks in a multitude of categories.

### The G2 reviews are in, and it's official: Users love us.

G2 announced the Best Software Products for 2023, and trusted reviewers placed Pluralsight atop plenty a list—no small achievement.

### So how does a company earn multiple awards?

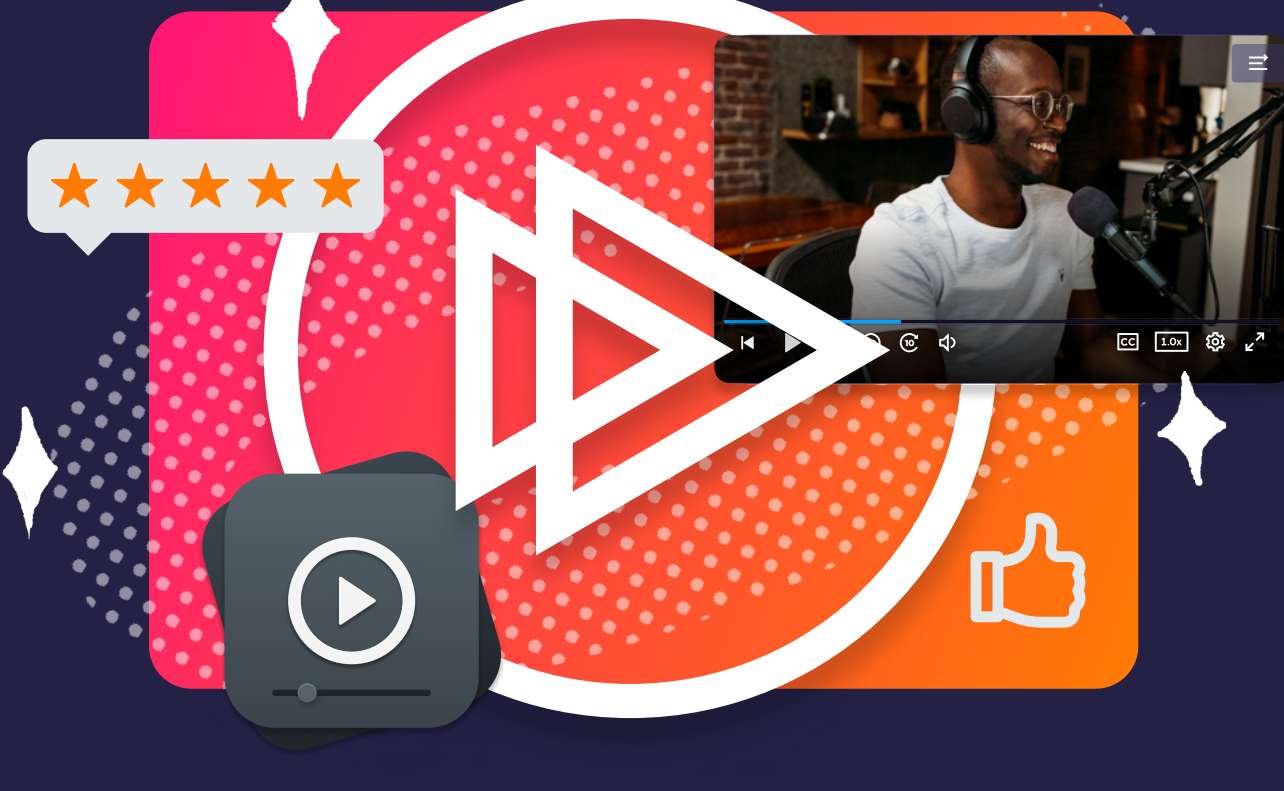

G2 compiles unbiased reviews from their user community and data from online sources and social networks. Best Software awards are earned by companies from around the world that offer best-in-class products and experiences for their customers.

Pluralsight managed to do that in multiple categories. (40 across a myriad of lists, but who's counting?)

“Pluralsight is helping us by providing a single solution for all our upskilling training. As a platform, it is complete and coherent, which allows individuals to not only upskill in one or two areas, but any they want.”

Melissa P.  
Global Program Manager

## #1 in technical skill development, enterprise

### 98% of users rate Pluralsight 4+ stars

The G2 Best Software Products of 2023 showed that organizations of every size, from small business to enterprise, value a tech skill development platform that's easy to set up and use. Throw in course offerings that keep teams ahead of today's tech and a badge-winning ROI, and you've got an upskilling solution that scores top marks.

## Let's break down our top 5 awards

Tech leaders around the world choose our solutions to transform their tech workforce. And these five G2 badges tell you why.

**Skill development at scale**

**Content that drives innovation**

**The “wow, that’s easy!” solution**

**The high-ROI tech investment**

**The reviews are in**

### Our fully badged solutions. Your future-ready workforce.

So how do you keep your org competitive (and keep your people) when faced with skills gaps, talent shortages, and tighter budgets? You build the teams you need from the talent you have.

### Investing in your current talent is more important than ever.

How do we know? We blind surveyed 1,200+ technologists, tech team leaders, and HR and L&D directors across industries and around the world to understand the skills gaps, barriers, and challenges they face today and turned it into the 2023 State of Upskilling. Download your copy for the data and insights you need to build a future-ready workforce.
