

EXPRESSPRO

UV-C SANITIZER

Mounts, Stands, and
Customization Options

Rapid Disinfection for Healthier Shared Spaces

Customize ExpressPro for your business and your brand.

Why ExpressPro?

Hands are only as clean as the items they touch.

Wherever people gather, germs thrive, especially on handheld gear like cell phones, tablet computers, key cards, and other everyday items. Place this touchless unit in high-traffic areas to reduce the spread of germs in 15 seconds or deliver deep disinfection in 30 seconds.

Deploy with ease.

Set up your device
wherever, whenever.

Each ExpressPro comes with a mounting plate adapter so you can position your device anywhere you would place a tablet or screen—wall, counter, roller cart, or desk. Combine it with a PhoneSoap mount or stand or pair it with a handwashing or sanitizing station for maximum germ-fighting potential.

Hang it.

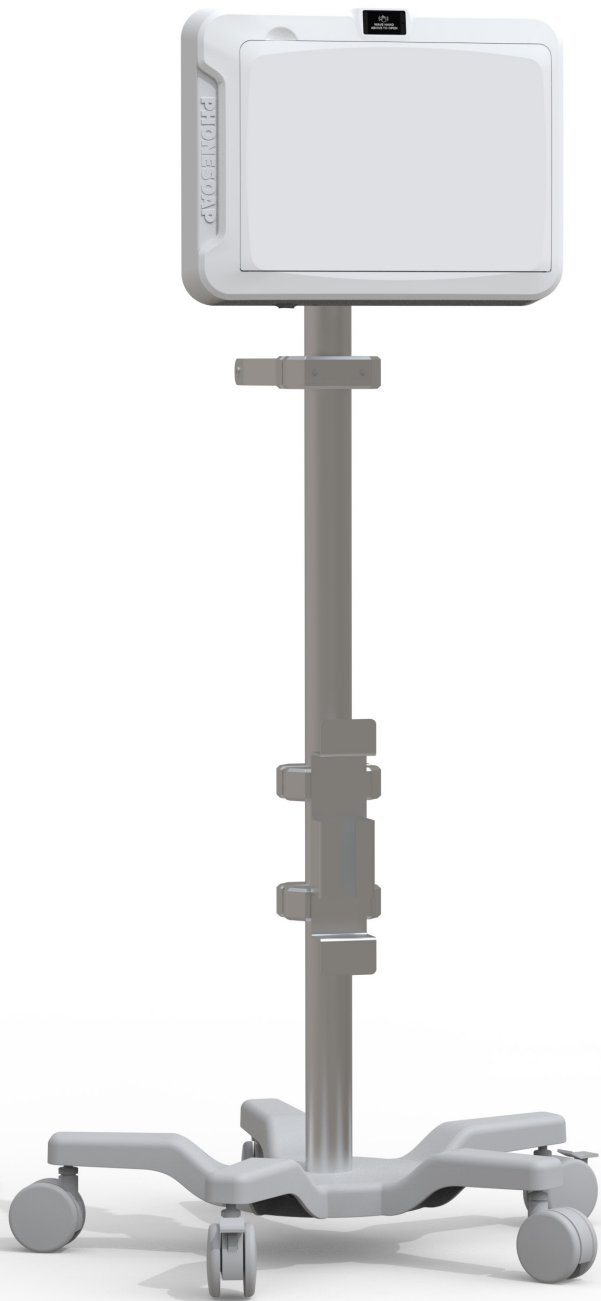

Save space by using the ExpressPro wall mount to attach the device to a wall in hallways, rooms, outside restrooms, or near registration desks. The possibilities are pretty much endless.

Place it.

The desk stand's minimal design and micro suction feet allow for easy placement on counters and desks. The included power adapter mount hides unsightly cables for a sleek, simple look.

Roll it.

Mount the ExpressPro to our super stable roller stand for ultimate mobility.

Because germ-tackling kiosks are always welcome.

Show how much you care with an ExpressPro kiosk in high-traffic areas. By promoting good device hygiene, you're helping staff and visitors create a healthier environment.

Design B

Design C

Make it a one-stop (disinfection) shop.

With the optional hand sanitizer attachment, visitors and staff can sanitize their hands while they disinfect their items. It's a one-two punch packed with powerful UV-C disinfection.

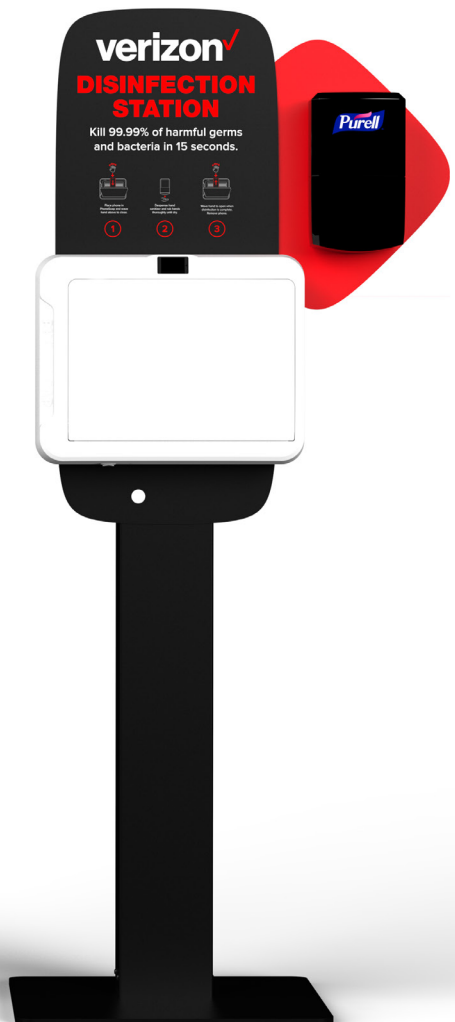

Boost your brand as you help build healthy habits.

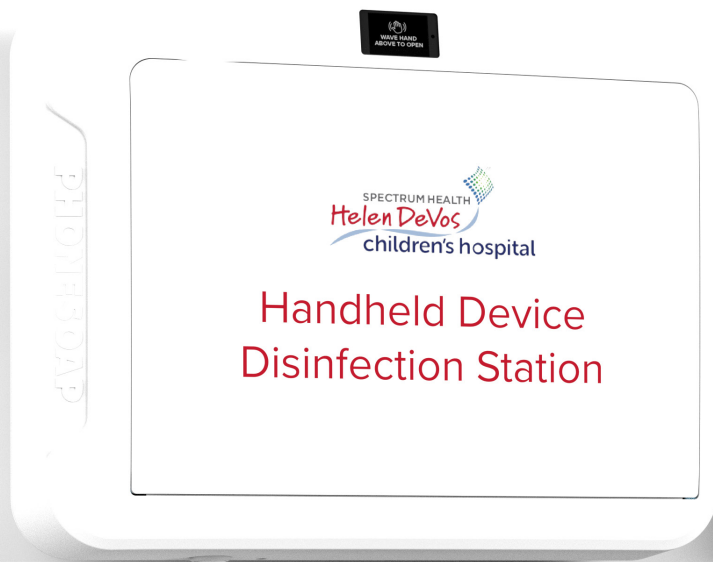

Get the most bang for your buck and customize the design of your disinfection kiosk. You could sell sponsorships, display your own company logo, add instructions, or simply let people know how filthy their handheld devices are.

Customized Kiosk

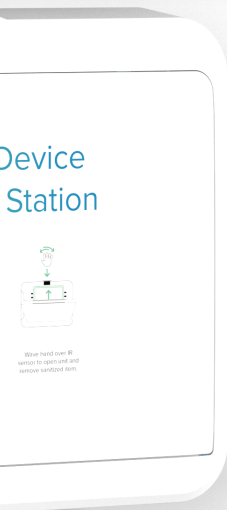

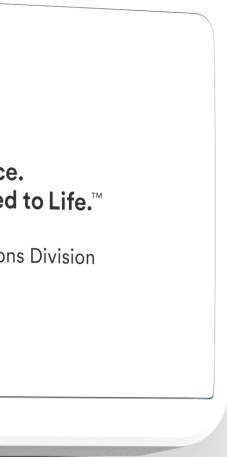

Customized Kiosk with Hand Sanitizer

Personalize your ExpressPro.

Pair your custom kiosk with a personalized ExpressPro for endless branding options. Consider the disinfection device a blank canvas—ready and waiting for your design. Advertise your logo, show a device how-to, or share a clever company tagline.
