

Talent on Display

Our shipboard teams are always coming up with creative ways to get together, relax and connect their colleagues. Enchanted Princess recently got into the spirit with a unique event – a competition

where would-be artists painted coffee mugs adorned with everything from undersea worlds and colorful landscapes to vibrant cartoons and more. Prizes included lanyards, sweet treats and

Princess swag. No doubt we have some talented teammates on board!

Congrats to the winners!

A Unique Perspective

Our teammates enjoy the opportunity to step away from their daily duties and see their ship in an entirely new light with bridge tours led by our navigational teams. Being able to get a peek behind the curtain gives teammates a unique perspective and makes them feel more connected to their ship.

Sapphire Princess and Enchanted Princess teammates, shown here, are all smiles following their recent tours. Thanks to everyone who organizes these fun and informative events!

Follow the Bouncing Ball

With lots of sea days during Coral Princess' 110-day World Cruise, Crew Welfare Coordinator Emelda Daka has been hard at work organizing fun activities and sporting events like a recent ping pong tournament that offered a night of friendly competition and camaraderie, while prioritizing our teammates' physical and mental health!

The games provided a chance for teammates to reconnect with their colleagues, while bringing out laughter and friendly rivalries between departments. These teammates had one goal in mind: to have fun while winning. Mission accomplished!

Honing their Skills

Nearly a dozen teammates on Diamond Princess recently completed our comprehensive Management Essentials Program.

The engaging and interactive course encompasses a series of eight rigorous workshops featuring group activities, dynamic role-playing and open forums, all design to hone participants' craft and skills needed to lead in the future.

Congratulations!

Let's Dance

Teammates onboard Coral Princess got their groove on during an energetic Salsa Class. The gym onboard was turned into a dance studio – for one day at least – as the ship hosted a Salsa Class for teammates interested in learning this classic dance.

Feeling the rhythm, the teammates danced the night away with their friends as laughter filled the air.

That's Entertainment

Since Sun Princess' debut in February, the entertainment team has been hard at work creating top-tier experiences for our guests, from elaborate shows and to engaging musical performances and their own take on Princess' legendary deck parties.

Recently, the group held a meeting in the Princess Theater where they game planned for the coming months, celebrated their successes and set goals for the future.

Keep up the great work!

Not Your Average Workout

As part of the official "Pure Barre at Sea" cruise, fitness enthusiasts on Enchanted Princess showed their energy, strength, and determination participating in sessions featuring Pure Barre's signature low-impact exercise classes — but they weren't the only ones who got to join in on the fun.

A highlight was Pure Barre on the Piazza which attracted a capacity crowd who watched in amazement as Enchanted Princess' officers joined fans to "lift, tone, and burn" their muscles through energetic workouts featuring elements of ballet, dance and Pilates, along with drills using weighted spheres and other equipment.

Returning in 2025, the Pure Barre cruise is just the latest in an exciting series of fitness cruises since our partnership with Xponential Fitness launched in 2022
