Project Manager & landscape Designer

Samui Luxury Villa

As a landscape projects manager in Samui, Thailand, I was responsible for overseeing and managing various landscape projects across the island. My role involved working closely with clients, architects, and contractors to ensure the successful completion of each project. One of my key responsibilities was to develop and implement project plans, including budgeting, scheduling, and resourcing and procuring materials, equipment, and plants for each project, ensuring that they met the highest quality standards.

Furthermore, I was responsible for managing a team of landscapes and laborers, providing guidance and supervision to ensure that work was carried out safely and efficiently.
