

# THE EXPERT COLLECTION AT A GLANCE

25+  
Journals

504+  
Volumes of  
research

54.2k+  
Peer-reviewed  
articles

## THE EXPERT COLLECTION

The Expert Collection comprises of **25 peer-reviewed journals**, combining the well-established Expert Opinion and Expert Review series into one essential and comprehensive collection.

This collection combines research with the personal opinions of our expert authors, who are all internationally recognized experts in their fields. They provide insights into where research is now, where it should go next, and how it should get there. With this in mind, all Expert Collection reviews end with an expert opinion, not a conclusion.

## TO OUR CRKN MEMBERS!

Taylor & Francis is pleased to offer our Expert Review Collection for an annual access fee of **\$3,800 USD** starting in 2024!

*Additionally, you will receive access for the rest of 2023 to the Expert Collection with just a verbal commitment!*

## SUBJECT AREAS

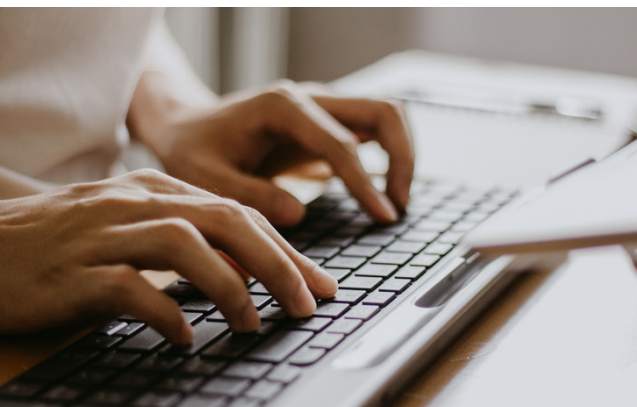

- Reviews
- Editorials
- Original Research
- Drug Evaluations
- Treatment Evaluations
- Clinical Trial Evaluations
- Technology Evaluations
- Patent Evaluations
- Key Paper Evaluations

The Expert Collection from Taylor & Francis:  
***Enhancing Research with Credible and  
Scholarly Resources***

## *What makes an expert?*

***The Expert Collection is comprised of authors who have been internationally recognized and have been published in their fields at least 100 times. That's a lot of experience!***

## *From the Community*

*"In my opinion, the Expert Collection is the most relevant journal review series in the area of Pharmacology. The Expert Collection is a credible, topical, and scholarly resource that I have come to rely on in my role as a leader of international pharmacological studies. It is apparent that the peer review process is thorough and critical, and the editorial process is unparalleled in terms of author support."*

**Dr. Roger McIntyre, University of Toronto**  
**Editor-in-Chief**  
**Expert Opinion on Drug Safety**

**THE EXPERT COLLECTION IS READ BY OVER ¼ OF A MILLION RESEARCHERS  
AND HEALTHCARE PROFESSIONALS MONTHLY.**
