

AI Generator Experience

I have never used an AI, especially for homework assignments. I was hesitant at first and wasn't expecting much. But I was honestly surprised with how accurate these captions came out and how the AI seemed to know the exact assignment that was given. The hashtag that I used was #SJMCExcellence. For my process I tried to type in "captions for School of Journalism and Mass Communication" into ChatGPT and got some decent ones but nothing special. When I typed in "#SJMCExcellence for Texas State Insta captions" the captions became more unique and also tied back to Texas State. For example, ""Where talent meets opportunity. 🌟 #SJMCExcellence #BobcatPride" relates to the School of Journalism and Mass Communication, as well as bringing in Texas State with the use of Bobcats. For ChatGPT, I didn't really have a hard time finding unique captions for our School of Journalism and Mass Communication. I thought that ChatGPT gave me the captions I was asking for and made them personable for Texas State. When I switched over to Deep AI, I think I was a little bit more hesitant than ChatGPT because I don't know which AI generator is preferred over the other. At first, I tried to type in "captions for School of Journalism and Mass Communication" to see if I got better captions on my first try unlike ChatGPT. Although I liked some of them, I preferred the captions that involved Texas State. I then typed in "#SJMCExcellence for 5 Texas State Insta captions" and didn't get the same captions that I got for ChatGPT. The captions for DeepAI weren't as appealing as the ones from ChatGPT. The captions were long and weren't as short and witty as the other ones. Overall, both AI's produced captions that were possible to use for an Instagram caption underneath the hashtag "#SJMCExcellence". Furthermore, I was impressed with how quick the generators were at producing the captions and how well-written they were.

DA #SJMCExcellence for Texas State Insta captions

Certainly, "#SJMCExcellence" is a great hashtag to use for Instagram captions related to the School of Journalism and Mass Communication at Texas State University. Here are a few Instagram caption ideas that incorporate this hashtag:
