

# COALWAY

LET US BRING THE FIRE INTO YOUR LIFE

# FIREPLACES ARE WHAT WE DO.

We are Coalway. We can help you make a radical statement in your home with a designer fireplace setting.

## Traditional

---

**Gather the family,  
keep the tradition alive.**

## Contemporary

---

The future of fire.

## Rustic

---

Bring out your inner pioneer.

## Transitional

---

Looks like tomorrow,  
feels like yesterday.

## Outdoor

---

The hot spot for your backyard gathering.

# SIMPLE AND EASY PROCESS

Whether you have an existing house in which you would like to add a high-end fireplace setting, or if you are building a new house with a fireplace, Coalway can do it.

## Step 1: Envision your layout

Think about how you want your fireplace setting to look in your home.

## Step 2: Choose your fuel type

Wood, Natural Gas, Propane, Electric

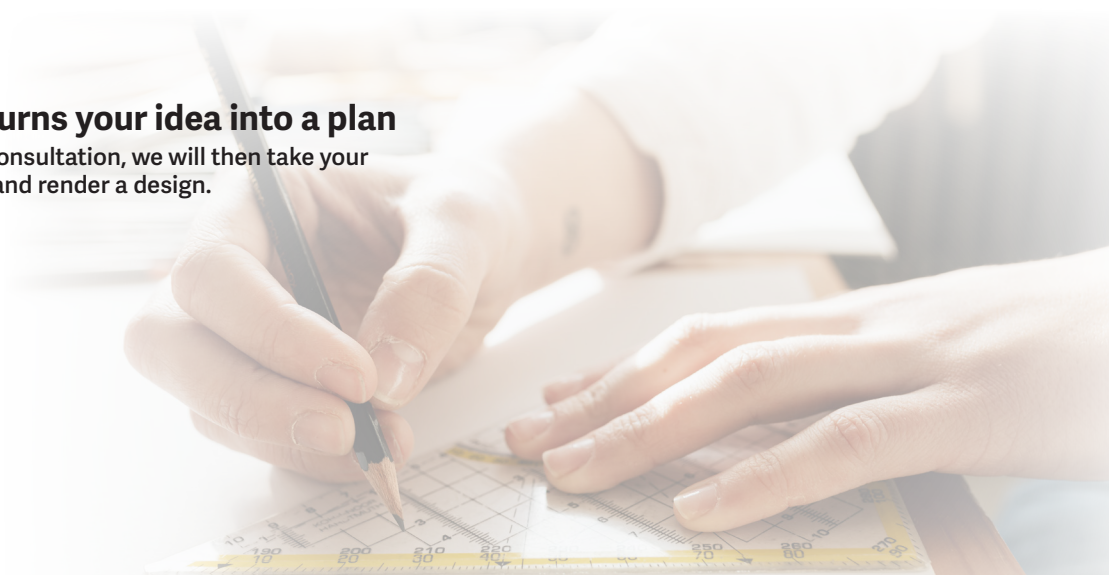

### **Step 3: Select your facing options**

Endless options for facing, mantles, and hearths including brick, stone, tile, ship lap, beams, sandstone, steel and more.

### **Step 4: Our team turns your idea into a plan**

Starting with an in-home consultation, we will then take your idea to the drawing board and render a design.

## Step 5: The installation crew will take it from there

With friendly professionalism, they will handle the construction, installation, and finish detail, while staying mindful of your surrounding living space.

Stay tuned for updates on our **3D Fireplace Visualizer** which is in the works. This tool will allow you to design your whole fireplace setting, and visualize it in your room! We are hoping to have this available by early 2022.

Get your fireplace project started now with an expert in-home consultation!
