

# **Basic Offshore Safety Induction and Emergency Training (BOSIET) Versus the Helicopter Underwater Emergency Training (HUET/T-HUET)**

*Version 2-2-2023*

## BOSIET versus HUET/THUET

The HUET is one component of the BOSIET.

Industry Basic  
Safety  
Induction

- Offshore hazards and effects/consequences
- Potential environmental impact of offshore operations
- Key offshore safety regulations
- Medication, alcohol and substance abuse policy
- PPE requirements
- Reporting incidents, accidents and near misses

Firefighting  
and Self  
Rescue  
Techniques

**BOSIET**

Helicopter  
Safety and  
Escape  
Training  
(HUET)

Sea Survival  
Training  
(including first aid)

Eni US Operating Co. Inc.

## Maritime Training Equivalency to BOSIET

In the maritime industry, the STCW95/2010 Basic Safety Training offers equal instruction for marine personnel. USCG licensees (or mariners) receive the THUET or HUET **along with** the STCW Basic Refresher, and an advanced firefighting course, which when taken together are equivalent to (actually surpasses) the FOET/BOSIET requirement.
