

DRAFT

As the largest sugar cane farming and manufacturing corporation in Eswatini, The Royal Eswatini Sugar Corporation (RES) is shaping Africa's sustainable sugar and renewable products industry by driving ESG performance and delivering value across its agribusiness operations.

“With SAP Sustainability Control Tower and the msg global solution team on our side, we can now continuously strengthen our sustainability footprint, improve reporting, and stay aligned with global frameworks and customer expectations.”

Rob Coombe, Group IT Manager,
The Royal Eswatini Sugar Corporation Limited

In a nutshell

By streamlining processes, unifying sustainability and business data, and automating reporting with SAP Sustainability Control Tower, RES can customize KPIs and improve reporting accuracy, transparency, and alignment with ESG goals and compliance.
