ambipar GROUP

As a global leader in environmental solutions, Ambipar invests in and operates decarbonization, circular economy, energy transition, and environmental regeneration projects. They also created Ambify, a carbon offset platform that democratizes carbon credits, making them accessible to everyone.

"By combining SAP's technology with Ambipar's decarbonization expertise to create Net Zero as a Service, customers will have access to a simple, comprehensive solution that contributes to the low carbon economy."

Tercio Borlenghi Junior, Founder & President of the Board of Directors, Ambipar

In a nutshell

With SAP Sustainability solutions, Ambipar established a unified data foundation, breaking down silos within the company, allowing them to seamlessly measure and manage carbon emissions.
