

Video Poodle Email Copy
Ashley Chandler

Dear _____,

For 25 years I have created behind-the-scenes videos for hundreds of family-friendly movies, including many for Walt Disney Pictures and Pixar Animation Studios. It has been a joy to contribute to extraordinary films that delight, inspire hope, and instill wisdom in children.

Now that I am a parent (my wife and I have two youngsters), I am hyper aware of how media is readily accessible to small children through infinite platforms; which means my kids can be vulnerable to media that is inappropriate and/or motivated by advertisers.

VideoPoodle.com is a positive and trusted environment, free of advertising and unsafe links, where children can watch responsibly made videos designed to engage and grow young minds.

Please take a look! My hope is that you will find my website and its videos useful and of value to you as a teacher, and that you will be inspired to share it with your students and their parents.

My Warmest Regards,

S.H.

POSTER

Description:

Hundreds of videos kids love!

Did you know...

Fire Trucks

- Fire trucks come in ALL colors. Not just red! There are blue, yellow, and even pink fire trucks!
- A fire truck could cost up to \$1,000,000 to make – you could buy 150 motorcycles for that much money!
- Fire stations have search and rescue dogs that can find people who are lost!
- Firemen go to school – just like you! They go to the Fire Academy to learn how to be firemen.
- A firefighter works for 24 hours – that’s an entire day!
- The water from a fire hydrant can travel SUPER fast through a fire hose – up to 13 miles per hour!

Driving

- The engine is the part of a car that makes it move! VROOOM!
- Speed limit signs are VERY important! They tell you how fast you can drive.
- Windshield wipers help you see through a car’s windshield when it’s raining!
- Traffic lights flash red, green, and yellow lights! Red means stop, green means go, and yellow means be careful.

Construction

- A blueprint is like a map of a home that tells you where everything goes!
- Safety is very important at a construction site. Always wear a hard hat!
- There are lots of different brushes you can use to paint your home. What color would you paint your room?
- The thermostat controls the temperature in a house. You can make it hot or cold!

Continued...

Horse

- A horse makes a sound called a neigh! Can you make a horse sound?
- You can tell how a horse is feeling by looking at their ears!
- A horse can eat up to 35 pounds of hay a day! WOW, that's a lot!
- A horse doctor is called a veterinarian! They make sure horses are healthy and happy.
- Feeding a horse crunchy foods (like carrots) can help keep their teeth clean!
- There are 300 different breeds of horses!
- Lead ropes help to tell a horse where to go!
- When you get on a horse's back, it's called mounting!
