California Schools Joint Powers Authorities

Helping Schools for over 30 years

1950 South Sunwest Lane, Suite 100 San Bernardino, CA 92408

We prepare you for the future

CALIFORNIA SCHOOLS RISK MANAGEMENT

California Schools Risk Management (CSRSM) is one of the state's longest standing and largest school JPA. We are a growing Joint Powers Authority located in San Bernardino, CA, offering property, liability, workers' compensation and construction coverage. CSRSM is member focused and continually invests in best practices and solution oriented innovation to achieve program stability and excellent outcomes.

As a full service not-for-profit joint powers authority, CSRSM specializes in using a variety of risk funding models and techniques to bring our member districts comprehensive coverage, risk-financing options, cost containment programs and loss control services.

CSRSM provides on-site risk managers that are assigned to each individual district so that when a problem occurs, you have a real person and expert to talk to; and you know you will have the resources of the JPA by your side.

CSRSM hosts a wide variety of training seminars and workshops to provide liability and workers' compensation solutions. We offer in-class, online, and extension training free of charge to our members. Workshops and Town Hall meetings are held on a regular basis; CSRSM owns its own online learning platform giving us the ability to add and customize trainings and courses tailed to exactly what you need; and our Risk Managers offer comprehensive onsite training at the request of member districts.

By the end of the year, all of our expert Risk Managers will have their Associate in Risk Management (ARM). The ARM is a nationally recognized educational program for dedicated risk management professionals that includes in-dept training of how to avoid, reduce, and manage risks. Having an ARM designation means that that person is an expert in the risk management process, including legal foundations of property, personnel and net income loss exposure, and can assist to make risk management decisions to any organizations exposures to accidental and business losses.

What Makes Us Unique?

You won't find member service like ours anywhere else.

We value your time and understand that our expertise can make your life easier. For CSRSM, every district has an assigned Risk Manager that they can call and each Risk Manager is backed by the entire Safety and Loss Control Team of experts. Your personal Risk Manager will find you an answer. For CSEBA, each district has an assigned Benefits Account Manager who will go out of their way to ensure all of your employee and district needs are met and expectations exceeded.

Every penny we spend is for our members--not profit.

We are excellent stewards of your money. Because we have one administration over two sister JPAs, the cost is spread between two separate pools which makes our administrative cost one of the lowest around. We host additional fundraisers throughout the year to return the money to our districts with value added; we host an Annual Golf Invitational to fund our bullying prevention and student resiliency programs implemented in our districts and an Annual CSEBA 5K to fund student wellness initiatives throughout our districts.

California Schools JPA has received California Association of Joint Powers Authorities' highest Accreditation, their *Accreditation with Excellence*. CAJPA's Accreditation Program is designed to ensure quality and professional standards for all risk management pools regardless of size, scope or operation, or membership structures. Accreditation with Excellence is reserved for those JPA's that exceed mandatory requirements and for which no conditions remain.

Driven by you.

CALIFORNIA SCHOOLS EMPLOYEE BENEFITS ASSOCIATION

California Schools Employee Benefits Association (CSEBA) has a rich, 30+ year history of providing medical, dental, vision, and life insurance benefit programs to public schools, regional occupational programs, and community colleges.

CSEBA is a member-driven, non-profit, jointly managed Labor and Mangement JPA that was established for the purposed of provideing self and fully insuraed medial, dental, vision, goup life, and any other programs of a similar nature benefiting labor and mangement employees of public educational agencies.

CSEBA offers efficient, value based plan designs, minimum value plans to comply with

CSEBA Marketplace

Since 2013, CSEBA has provided districts and their employees with new and innovative benefits options that offer high-quality, affordable coverage for any budget in an exchange-like platform called the CSEBA Marketplace.

CSEBA was the first, and is the only, JPA to create and offer a benefits exchange to their members. Marketplace plans are specially tailored for school employees--offering comprehensive coverage, cost savings, and choice. You'll find medical, dental, and vision plans for a range of different health care needs and budget, typically at lower costs to both districts and employees.

the Affordable Care Act, Disease Mangement Programs, Robust Wellness Initiatives, and the CSEBA Marketplace to its members.

CSEBA also provides a forum for discussion, study, development and implementation of recommendations of mutual interest regarding their benefits.

Above all else, we offer unparalleled customer service because we believe that our members always come first.
