

Addressing OSHA's Top 10 Violations

Please join us for our upcoming Risk Management Training Webinar on
Wednesday, August 30, 2017 from 2:00pm - 3:00pm

This will be recorded and available via our web-based Risk Management Training Webinar Platform for our members.

Course Overview

Don't get hit with an OSHA violation and fine. This presentation will review the top 10 violations as well as help you understand the requirements for compliance. As a Risk Manager, it is important to understand what OSHA violations are being identified in order to ensure compliance. While compliance is one piece of overall risk management, knowing what violations are common can help you with evaluating the status of your programs and also prioritize improvement. We will cover: OSHA's targeted programs for compliance, Top OSHA and Cal-OSHA violations, Past violations within California Colleges, Review of each of the top violations, and Best Practices.

Presenter -- John Owen, CSP, CIH

John is a Lead Risk Control Consultant for Alliant Insurance -- Risk Control Services team where he brings his passion as a safety professional, enthusiasm for collaborative partnerships, and over 20 years of experience including roles in safety consulting, operations, and account management. His experience includes working for global fortune 25 companies, start-ups, and public organizations. As the Lead Risk Control Consultant, John's primary focus is to provide risk solutions to Alliant's public entity clients including schools, hospitals, cities, counties, and states.

John's unique background has enabled him to combine safety/risk consultation along with practical experience of the daily aspects of business operations.
