

# The Faster, Better Way to Get Paid.

It's time to change the way you  
receive and manage bill payments.

Collecting customer bill payments in a timely, efficient and secure manner is a challenge. And, for smaller billers – often excluded from mainstream electronic bill pay directories – paper checks may be the only option. As a result, these billers may spend days chasing and reconciling payments

What if billers could optimize their operational efficiencies and reduce the risks associated with problematic paper checks, all while accessing a faster, easier guaranteed way to get paid.

**BillGO Exchange** helps speed payments to billers by leveraging larger, established payment networks to help all billers – large and small – enjoy the same efficiencies that larger organizations do. Payments can be processed faster, because longstanding hassles associated with managing paper checks are minimized. This also helps reduce the need for manual follow up and reconciliation.

## BillGO Exchange Delivers:

### Faster Payments

Paper checks are transformed into reliable digital payments meaning you get paid in minutes rather than days.

### Simple Reconciliation

A modern payment experience enables your customers to pay quickly and more securely. Payments are easily tracked via BillGO exchange's customized self-serve solution.

### Reduced Risk

Rest assured – paper checks, NSF fees, charebacks and trips to the banks are minimized – reducing fraud and risk.

By enrolling in BillGO Exchange, billers become part of the BillGO Electronic Directory, empowering them to receive electronic payments more efficiently.

#### Membership Includes:

- Access to a secure account portal that stores key information and payment histories (as of the first date of service).
- The option to choose between processing payments yourself or have BillGO automatically process them.
- The ability to download payment information directly from a secure account portal 24/7.

## So What Will It Be? Status Quo or BillGO?

Discover the power of speed, choice and intelligence.
