

# Help maintain a full schedule for providers

We hear it often when practices see our software for the first time. So often, in fact, that we named it. It's called a WOW Moment and it's when you realize that you don't have to compromise and live with the limitations of your outdated system any longer.

**WOW!**  
"THAT'S EASY!"

For Practice Manager Wendy Burmeister, her WOW Moment was discovering that our Practice Management system could help her manage different appointment types and adjust schedules based on provider preferences.

*"The best part about having an all-in-one system is the transparency and ability to see all of the doctors' schedules and patients' appointments, including surgeries, across all locations easily."*

- WENDY BURMEISTER, PRACTICE ADMINISTRATOR,  
EYE PHYSICIANS & SURGEONS OF AUGUSTA, PC

## What will your WOW Moment be?

The #1 ophthalmology EHR\*  
for seven consecutive years
