

████████████████████ will be a dance and yoga studio in ██████████ that offers unique dance classes to people of all ages. The studio will offer classes that follow the student through their life. From classes for babies and toddlers to take with their parents, to classes for children of all ages and skill levels, to classes for adults to teach technique or practice fitness, ██████████ offers it all.

██████████ will be a brightly lit and modern studio in a freshly renovated building with new floors and mirrors. The studio will contain a large room featuring a removable divisional wall so that two classes can occur at the same time. The lounge area of the studio will contain a two-way mirror so parents can watch their children during their class without distraction to the kids. The lounge area will contain comfortable seating and cubbies for personal belongings.

Teaching the dance classes will be a skilled and experienced dancer and teacher with a Bachelor's degree in Dance Education. Options for dance techniques will include ballet, modern, improvisation, jazz, and Mexican Folklore. ██████████ will also offer pre-professional classes for students hoping to advance as professional dancers.

██████████ will be a place of community, offering informative talks and retreats and renting the space to local theater groups and other arts related organizations. The focus on encouraging culture and art in the community, along with varied techniques and age ranges that aren't offered at other studios, set ██████████ apart.
