

# thinking ahead

Make sure your car is ready for the change of season

**FALL IS A TIME OF TRANSITION**—the leaves are turning, kids are going back to school and the roads are busier as everyone returns from summer vacation.

Your driving habits will probably shift with the season as well. So this is the perfect time to make sure your vehicle is ready for fall.

## KEEP YOUR CAR IN TIP-TOP SHAPE

Have a few summer road trips taken place since your last oil change? Check your owner's manual for the recommended service interval, and schedule one if you're due.

## MAKE ROAD SAFETY A PRIORITY

With kids going to and from school and the weather changing, it's a good idea to allow yourself extra time to get where you're going. Give your emergency kit a once-over—you'll

want fresh batteries in the flashlight now that the evenings are darker, for example.

## PLAN AHEAD FOR NEXT SEASON

Before you know it, temperatures will have dipped to frost. Make an appointment to have winter tires put on your car now, before the calendar fills up with kids' activities, work trips and visits with friends.

## UPDATE YOUR INSURANCE COVERAGE

If you've bought a new car, you'll need to add it to your policy. But this is also a good time to make sure your current policy fits your driving habits and your current insurance provider is giving you great value. Contact a CAA Insurance agent for a complimentary review of your policy.

## Is your auto insurance keeping up with you?

**With the leaves turning, it may be time to turn over a new leaf on your policy.**

Make sure your insurance coverage is ready for the season too.

- Do you have the right coverage for your driving habits?
- Are you taking advantage of exclusive Member savings?
- Have you bundled your auto and home insurance to receive complimentary coverage?

We can help make sure your coverage is ready for what's ahead—even if it's not with CAA Insurance.
