Title:	Malaria Cure-FINAL final	Author:	Valerie Elwell

Video	Audio
UH Works logo with sponsor logo present	I'm Sean Ching with another way UH Works. (:02)
	Malaria is a deadly disease that threatens 40 percent of the world's population.
	Dr. Sandra Chang and her team from John A. Burns School of Medicine at UH are very close to discovering how to prevent this <u>global</u> killer.
.	Their malaria vaccine has already been proven to work on owl monkeys.
	Next step... produce the vaccine for human trials and license it for human use. :20
