Workforce Go! cloud-based software for payroll, people, and time, previously branded as Ameriflex Workforce Solutions is now jointly managed by leadership at MicroAccounting and Ameriflex.

CARROLTON, TX (PRWEB) JANUARY 25, 2017

Workforce Go! cloud-based software for payroll, people, and time is stronger than ever thanks to a new partnership between leadership at MicroAccounting and Ameriflex.

Previously branded as Ameriflex Workforce Solutions, Workforce Go! will continue to provide the all-inclusive human capital tools that customers already enjoy. The new partnership will leverage the successful track record of Workforce Go! and the extensive business solutions experience of the newest implementation consultants to deliver enhanced support.

"Along with the expansion of our service team and the introduction of the new Workforce Go! brand, we are excited to partner with leaders at MicroAccounting to collaborate in building out a unique human resources management offering," said Bart McCollum, Ameriflex president and chief operating officer. "MicroAccounting's commitment to state of the art technology and decades of experience with integrated HR management solutions ensures that Workforce Go! customers have the best tools and expertise at their disposal to address their workforce management needs."

Bill Harris, chief executive officer of Workforce Go! and MicroAccounting said, "We've selected MicroAccounting employees who have worked with payroll, people, and time management applications for decades to join the Workforce Go! team. Our consultants have always focused on providing seamless implementations and integrations, and Workforce Go! clients are already benefiting from the additional support. We have doubled the size of the implementation team since October."

ABOUT WORKFORCE GO!

Workforce Go! provides a web-based workforce management platform designed to help employers reduce costs and more efficiently manage people related processes.
