

# EUROFINS: SPARTANS OF TESTING

Grit. Determination. Endurance. In true Spartan spirit, we've powered through a long, tough course this year.

Eurofins helped make that possible, ensuring Spartan staff and teams stayed safe throughout events with on-site testing and quick pivots as testing needs evolved. Eurofins defense:

Test people: PCR, antigen, antibody, pooled sampling

Early detection: Surfaces, worn masks, indoor air, wastewater

Support: Process audits, training, safety certification

Eurofins performed more than 15 million SARS-Cov-2-related tests between March 2020 and March 2021. What you can expect: Innovation, agility, customized service, and the highest standards of scientific excellence.

Connect with Eurofins today to learn how we can power up your event:
