_____

H2 - The ErgoServ Advantage

Individual and Personalized Service to Each Client

Enjoy the attention and care you would get at a small boutique agency. We create individual propositions custom-tailored to your needs.

Workflow Transparency

You have full access to our team, process, and tools. We provide regular and detailed reports so you know exactly what's happening at every step.

Strategic Partnerships

We value long-term strategic partnerships and are committed to going the extra mile to meet your needs today and support your business as you grow.

Proven Track Record

We have built strong client relationships spanning over 8 years. Our customers trust us with highly complex, mission-critical solutions.

Timely Updates and Regular Communication

We go out of our way to make clients feel understood. We are candid when we share our concerns, give regular updates to our customers, and frequently ask them for feedback.

About ErgoServ

Custom software development service company

ErgoServ is your trusted full-cycle project development company. We develop strategic software solutions for businesses across the globe. It took us years of work in the field to gain the experience we have now.
And that's what makes us excel at flawless, easily scalable backend architecture and the creation of web solutions based on complex server business logic.

_____

H2 - Our Leadership

The founder and CEO of the company is a passionate technology executive with over 18 years of experience in software development. Having worked with clients across multiple countries and domains, he brings unparalleled knowledge to ErgoServ, ensuring personal responsibility for the success of every product we build for our clients.

_____

H2 - Our Mission

Our mission is to provide an innovative approach with disruptive thinking backed by cutting-edge technologies.

We've created a culture that rewards first-principle thinking and constant learning to give our talent a safe space to work and grow.

To make our clients feel comfortable working with us, we take full responsibility for each project and foster an environment of transparency by describing all the pros and cons of every solution.

We focus on healthy and long-term relations with our clients and partners. And are happy and proud to have had strong client partnerships since early 2014.

_____

H2 - Our Core Values

These four values are an integral part of the culture at ErgoServ and are the driving principles that ensure all our employees are working towards a common objective. Our values enable us to create better solutions, greater client value, and new competitive advantages for our clients.

Responsibility

We believe our success lies in our clients' success. We take complete responsibility for the end-to-end process and truly listen to clients before offering solutions that build them maximum value.

Professionalism

Our success lies in the talent, drive and commitment of our people. Our talented engineers and experienced managers are reliable, consistent, honest, and take pride in creating optimal value for our clients.

Passion

Our engineers are ambitious, focused, and self-starters. We are passionate about what we do and pursue our project objectives with high enthusiasm and a missionary zeal to deliver only the best.

Simplicity

Every client is unique, and so should their solutions. We keep it simple and build easy-to-use software that is effective and tailored to every individual client's business goals.

_____

H2 - Our Geography
