Spring into new season style!

Welcome to our SS22 lookbook

We just can't wait to share our latest trends and collections for a spring/summer home and garden refresh. This year's lookbook is bursting with inspiration and packed with exciting, new products.

Whether our customers are transforming a space on a budget, accessorising, putting the finishing touches to a room or just wanting to get the garden in shape, we're here to help them get stuff done.

We're really proud of our paint and garden heritage too! We'll be sharing how easy we've made it to decorate a room in a weekend, plus, grab a sneak peek at the latest innovative products designed to make gardening a little simpler.

We hope you enjoy it and find lots of inspirational little wins along the way!

Our team at Brazen PR will be your day-to-day contacts for all sample requests, product queries and prices for any features you are planning.

LITTLE WINS THAT MAKE A WORLD OF DIFFERENCE

We've been working hard to be socially responsible for over 90 years and we care about making a difference to our planet. That's why we're always looking for ways to help our customers get stuff done as ethically, sustainably and responsibly as possible.

Here's how we're doing our bit to make a difference in our customers' gardens, without costing the earth:

Kinder compost

We're extending our range of peat-free compost and reducing the peat content in our existing composts.

Clever composting

Our composting range includes compost bins, compostable bin bags and composter additive (to speed up composting). It's never been easier to turn household kitchen waste into compost, instead of sending it to landfill.

Water difference

We're helping to keep gardens hydrated the eco-friendly way. Our wide range of water butts allow the recycling of rainwater, with slim line options for smaller gardens too.

Planet-friendly ranges

We're proud to offer our customers a choice of Vegan Society approved fertiliser, and we're expanding our range of organic feeds too. Plus, there's plenty of child and pet-friendly products to choose from, which are free from herbicides and pesticides.

Keep feathered friends well fed ready for nesting season with nutritious and high-energy fat balls

LITTLE GARDEN JOBS FOR SPRING!

Our customers love nothing more than rolling up their sleeves and getting stuff done in the garden. According to our customer panel, tidying the garden featured in their top 3 list of jobs nearly all year round. It's really important for our garden lovers to have a multi-functional space for entertaining, relaxing and playing with the kids and pets. Spring is the perfect time to make a start on bringing outdoor spaces back to life after a tough winter.

Lush lawns

Lawns will be looking a little worse for wear after the colder, wetter months. Fill any bare patches with a great quality grass seed, tackling any moss along the way. As it gets warmer, the lawn can be mown more regularly too.

Give it a good rake

Clear away leaves from the lawn to stop it becoming waterlogged and damaged. Fallen leaves make for fantastic mulch, so there's never been a better time to start composting. In fact, small twigs and those grass cuttings can all be composted too!

Add some colour

Winter months are tough on the garden so now's a great time to freshen up fencing, sheds and wooden furniture. A lick of paint is all that's needed to bring wood back to life and help it last for years to come.

clever pots

Demand for 'grow-your-own' shows no signs of declining as we move into the 2022 growing season. Giving seedlings the best start in life is one of the most important things any gardener can do to make sure there are plenty of growing success stories throughout the year. That's why the latest Clever Pots products have been carefully researched and specifically designed to aid propagation.

We're proud to sell the Clever Pots brand at wilko, and here's a little more about their newest ranges...
