iTech

ALL ABOUT ITECH

> "iTech's goal is to help your business create, share and protect your information… giving you peace of mind, so you can focus on your bottom line."

MIKE WILLIAMS

OUR STORY

Founded in 2001, iTech is the area's largest and most experienced technology service provider. With offices in West Virginia, Ohio and Kentucky, iTech provides a range of services to more than 3,000 customers…from small offices to Fortune 500 companies. At iTech, we provide technology solutions for businesses to streamline operations and improve productivity.

WHY ITECH

By choosing iTech, you get the best of both worlds: the care and attention you want from a locally owned business along with access to a comprehensive line of technology and services to take your business to the next level. Our attention to detail, outstanding customer service, competitive pricing and industry expertise makes us the best choice for technology.

WHAT WE OFFER

IT Services

We provide professional IT support services including cyber security, computer repair, web hosting, cloud data backup, virus protection, VoIP internet phone systems, and much more.

Security Services

Advanced Alarms offers burglary and fire protection, video surveillance, intercom systems and 24-hour monitoring and more.

Marketing Services

iTech provides a full array of marketing services including social media, web design and maintenance, SEO optimization, and public relations.

Printer Services

iTech is a Platinum Xerox Partner providing our clients award winning Xerox printers, multifunction copiers and digital presses. Our team of experienced certified technicians are here to support your business.
