Existing Distributor Outreach Script

VT REP: Good afternoon. Thank you for taking the time to meet with me/us.

Phase 1 – Getting to Know Them Better

I was interested in learning a little bit more about your company's methods and processes. Would you mind if I asked you a couple of questions?

- How do you target your customers currently?
- What are potential questions you'd want to ask?

Thank you so much for that insight. It helps me to understand better how your distribution works.

Phase 2 – Customer Lists

I also wanted to let you know that in running our Amazon sales reports, we couldn't help but notice some of the business buyers might actually be among your customers.

Would you be interested in learning who these parties are? Perhaps even if they are not existing customers, they could be potential buyers in the future.

CUSTOMER YES:

Okay, great. I will have my associate compile a list for you and send it on over.

I was also wondering if there was a way that we could assist COMPANY in capturing additional sales by offering our newest products through your distribution. It may be a good way to provide your customers with additional opportunities, or even draw in new customers.

Could I also send you over a list of those products that might be missing from your distribution?

CUSTOMER NO:

Okay. If you ever change your mind and would be interested, I'd be happy to send you a list.

Would it be okay to send you over a list of those products that might be missing from your distribution? It may be a good way to provide your customers with additional opportunities, or even draw in new customers.

CUSTOMER YES:

Perfect. I'll have that information over to you by the end of the week. I appreciate your time today. Is there anything else that ABC can support you with?

CUSTOMER NO:

I understand. If you change your mind, just let me know and I'd be happy to gather that information for you. I appreciate your time today. Is there anything else that ABC can support you with?
