## THE FOUNDER

Hi, my name is Omuok! I am the Founder and CEO of MUUOK, which established the skincare line Uba Essentials. We are a Switzerland-based company that creates homemade-style, natural, high-quality, and unique skincare products.

During my teenage years, I had beautiful and clear skin. However, after I relocated to Europe, I started experiencing dryness and breakouts. The irritation eventually led to blemishes and hyperpigmentation.

As a black woman living in Europe, I found it challenging to find effective skincare products designed for my melanin skin. Importing products from overseas was not only difficult but also expensive. This frustration inspired me to start creating my handcrafted products.

My passion for the science behind skincare led me to pursue a career as a product formulator, and I began to create skincare products for myself, my friends, and my family. I made each product in the Uba Essentials assortment to solve real skin concerns.

I experience genuine joy and fulfillment from helping others. This inspired me to create MUUOK, the mother brand of Uba Essentials, and establish my own skincare business. I sincerely hope the products I formulate will continue to positively impact my clients, helping them look and feel their best.
