# Why Tom Ford's Soleil Blanc Should Be in Every Woman's Summer Fragrance Collection!

MAY 13, 2022

The weather is finally beginning to warm up as the sun comes out to play! Finally, it's time to break out the sandals, sundresses, and bathing suits! As the summer rapidly approaches, many of us dream about a vacation!

Close your eyes and imagine being whisked away to a private island getaway, where you can bask in the sun's warmth while sipping on coconut water under the shade of a beautiful palm tree.

It'll be easy to imagine that you're in paradise when wearing Tom Ford's Soleil Blanc! This luxurious fragrance is the perfect addition to every woman's summer fragrance collection!

It's a beautiful amber floral fragrance that opens with a bright burst of fresh bergamot and creamy pistachio. Spicy cardamom and pink pepper add an exotic spicy and hint of heat to the opening while a fresh floral bouquet of tuberose, ylang-ylang, and jasmine dance in the background. As the fragrance begins to dry down, creamy coconut surges forth with a blend of sweet tonka bean and rich amber and benzoin.

The perfume's moderate longevity will keep the intoxicating fragrance lingering on your skin for hours. Also, its moderate sillage will turn heads and garner you many compliments without being too overpowering or distracting.

Soleil Blanc is white sand beaches, crystal waves breaking across the shoreline, and brilliant warm sunlight captured in a bottle! This beautiful fragrance is ideal for the fragrance fanatic that is on the hunt for the perfect coconut fragrance that inspires summer vibes!

Are you ready for your trip to paradise?

Try a decanted [sample](#) and see why Tom Ford's Soleil Blanc should be in your summer fragrance collection!
