Mar 10, 2021 #2 I'm about to do a very similar cycle with test 250mg/week and primo @ 400mg/week. I was planning on taking trenvar and possibly Ostarine preworkout for an anabolic boost as well. I'm also planning on taking Var 25mg a day either at the beginning of my cycle or the end of it for around 6 weeks.

underdosed or counterfeit which is sadly the case in some instances. 400-500 mg is plenty for a first time user.
