

Jason Nelson

Technology Reporter

About Me

I am a technology journalist and content creator passionate about exploring emerging technologies. I launched the Crypto Insights Journal YouTube Channel in 2018 to make blockchain and DeFi concepts accessible to newcomers to Web3. Now a journalist with Decrypt Media, I specialize in covering artificial intelligence, robotics, cybersecurity, military tech, medtech, and space exploration. I aim to empower and inform, connecting readers with a tech-native world and its cutting-edge innovations.

Work Experience

October 2021 - Present

Decrypt Media

Reporter

- Researched and wrote compelling news stories on topics such as AI, biohacking, robotics, space exploration, and other emerging technologies.
- Developed and pitched story ideas to the editorial team, aligning with current news trends and audience interests.
- Consistently met tight deadlines while maintaining high standards of quality and accuracy.
- Collaborated with editors to revise and refine articles, incorporating feedback to enhance clarity and impact.
- Adhered to journalistic ethics, including rigorous fact-checking and responsible sourcing of information.
- Adapted to cover breaking news and responded to rapidly changing developments.

June 2020 - October 2021
