HANGRY

LOGO DESIGN

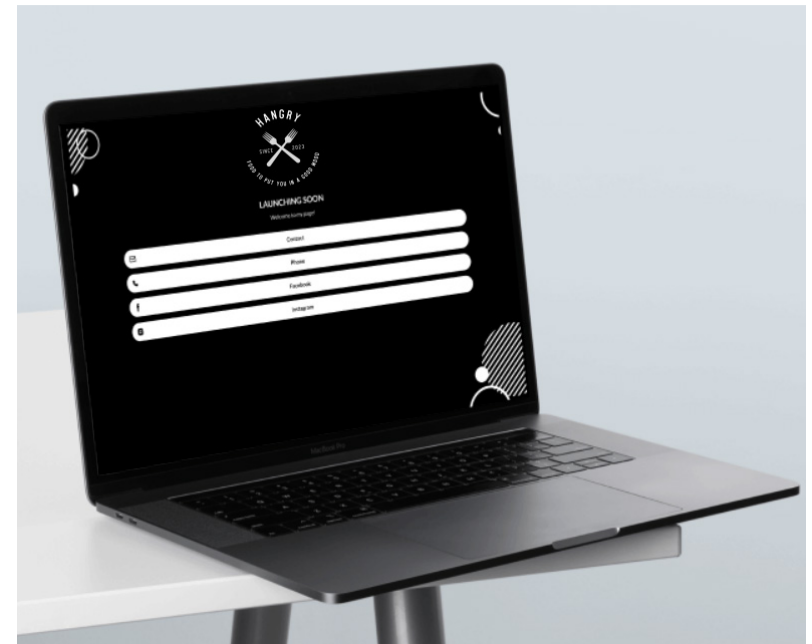

Embrace the meaning of Hangry.

Adding a slogan that speaks against the meaning of hangry enforces positive vibes as well presents what the restaurant will offer.

Keep it simple: The logo is simple however it holds a hidden message that reenforces positivity. Stand back and you will see it has a hidden smile.

Colour: Black and white represents confidence as well as “Opposites attract”.

Hangry meaning bad-tempered or irritable as a result of hunger. while white represents the opposite feeling people will get when visiting the restaurant.
