HAVCO® – THE NUMBER ONE TRAILER FLOORING MANUFACTURER IN NORTH AMERICA!

HEAVY DUTY MOISTURE PROTECTION

FOLD

The Ultimate Flooring Protection

With **HD TopCoat** and **HD UnderCoat**, Havco is making the most durable trailer flooring on the market even better! HD TopCoat and HD UnderCoat are unique additions to your trailer floor, providing moisture protection and making your floor last longer than ever before. The HD TopCoat protects your floor while providing traction for forklifts and people walking on it. Testing revealed that the protective characteristics of HD TopCoat by Havco remained intact – even after 4,000 forklift load cycles.

- Seals and Protects
- Extends the Life of Your Trailer Floor
- Less Maintenance Downtime
- Durable PUR Moisture Barrier
- TopCoat Improves Traction
- Wear Resistant

HD TopCoat and HD UnderCoat are factory applied hotmelt polyurethane (PUR) coating.

With this special patented PUR coating, your trailer floor will last longer and require less maintenance.

This American-made, high-quality product offers the best protection for your Havco trailer floors.

Ask us about adding HD TopCoat and HD UnderCoat to your next trailer purchase.
