

Dementia Target Account Program

A home care provider you can depend on

When everything is changing, Interim HealthCare is a constant source of care and support to people living with dementia.

Since 1966, Interim HealthCare has been providing the home care services individuals need to thrive at every stage of life. A leader in our industry, we have the resources and training to deliver expert care to our clients. Home care can be an anchor of comfort when life is changing. By combining science-based techniques with compassionate, dementia-trained caregivers and a holistic plan of care, we provide the support they need to live a safe, comfortable and meaningfully engaged life. Their world may be changing, but we'll be their constant.

Over the next few weeks, we will be dropping by with more insights about our home care services for dementia and the value it brings our clients. We look forward to sharing our business with you!
