## Celestron Nexstar Evolution 925

**R71869.00**

*SKU: C/12092*

WIFI integration

Celestron SkyPortal App

Portable 9.25 inch Schmidt-Cassegrain optical tube with StarBright XLT optical coatings

### **DESCRIPTION**

[Visit the manufacturer's website](#)

### **DESCRIPTION**

Explore the galaxy and beyond with the first ever Schmidt-Cassegrain WIFI-integrated telescope. Now you can navigate the wonders of the universe with a simple tap of your smartphone on the Celestron SkyPortal app for IOS and Android. Gaze at the gorgeous night sky in real time by using the telescope's super-useful planetarium interface.

Forget about the hassle of buying batteries on a constant basis, or having to charge your telescope every two hours. The Nexstar Evolution includes its own long-lasting battery, giving you 10 hours of stargazing bliss.

This telescope's Schmidt-Cassegrain optical system and tracking accuracy offers crystal clear views of faraway celestial bodies such as Orion Nebula.

### **FEATURES**

- WIFI-integration
- Celestron SkyPortal app
- Portable 9.25 inch Schmidt-Cassegrain optical tube with StarBright XLT optical coatings
- Computerised GoTo mount with high-performance worm gears and motors for enhanced tracking accuracy
- Superbly long-lasting lithium-iron phosphate battery with 10 hours of battery life
- User-friendly industrial design with manual clutches and integrated carry handles
- Two accessory trays and USB charge port for smart device
