

FIFA 23 META

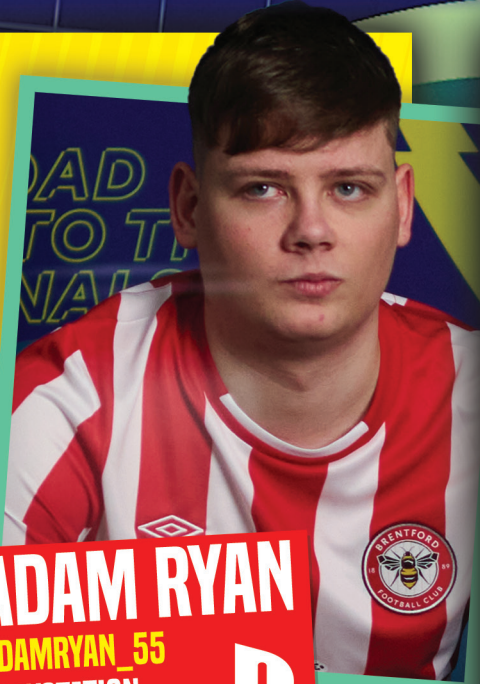

META MEANS 'MOST EFFECTIVE TACTIC AVAILABLE'. IF A TACTIC OR A PLAYER IS META, THEY ARE SUPER OVERPOWERED AND NORMALLY DEADLY!

WHO IS THE MOST META PLAYER IN YOUR SQUAD AND WHAT MAKES THEM SO GOOD?

"Definitely **Ruud Gullit**. He's a unique player that can play in pretty much any position on the pitch. He's so intelligent in attack and in defence he wins every ball. It's almost like he has a force field around him."

WHO IS YOUR MOST META PLAYER IN FIFA 23 AND HOW DO YOU USE THEM?

"**David Ginola** is great because it's very easy to score from crosses.

I use him in a 4-2-2-2 formation with 'get in behind' and 'come back on defence' instructions.

WHO IS THE MOST META SUPER SUB TO BRING ON WHEN YOU NEED A GOAL?

"My go-to META sub has to be the **Adama Traore** special card.

Adama's very fast and he's able to just get in behind the defence constantly."

WHO IS YOUR MOST META PLAYER AND WHY ARE THEY UNSTOPPABLE?

"The most META player in my squad is **AI Owairan**.

With a massive 99 pace, he's so hard to stop when he's in full flow and he can terrify defenders."
